EUNETIPS
BREAKING NEWS

[TO DO LIST 2018](#)

Dear _____ All,
after the successful winter meeting in London last December, we are now working according to the agreed "To do list 2018". Please have a **look to our "to do list"** so that you are aware of all our challenges and duties in these first six months. In our web site you'll find also other documents and presentations held in London.

This year EUNETIPS celebrates ten years from its foundation and we are planning to have a great 2 days meeting in **Berlin next 6-7 December**. This will be a great opportunity to review what has been done in these years but at the same time to discuss and agree the future of our network. So please **SAVE THESE DATES** in your agenda and plan to come to Berlin for our 10th year celebration. In London we had the opportunity to set up two main categories of activities for these months:

1. To launch a series of surveys ... [\[keep reading\]](#)

**Estonian Society for Infection Control
(ESIC) joined EUNETIPS**

joined EUNETIPS last December in London. Estonian Society for Infection Control (ESIC) represents infection control professionals and other allied healthcare professionals (pharmacists, Health Care College`s teachers etc.) interested or involved in infection control. It was founded in 2003 with a core purpose to promote prevention and control of infections associated with healthcare (HAIs) and as a result to improve patient safety and healthcare quality in Estonia. The objectives of the Society include: .. [\[keep reading\]](#)

Joint Action
Antimicrobial Resistance and
Healthcare-Associated Infections

EUNETIPS is a stakeholder in the European Joint Action on Antimicrobial Resistance and Health-Care Associated Infections (JAMRAI)

Joint Action on Antimicrobial Resistance and Health-Care Associated Infections (JAMRAI) has been launched in September 2017. Its main objectives are: identifying and testing evidence-based measures to address AMR and HCAI in different contexts and, based on

the outcome of these tests, provide recommendations to policy-makers; bringing together different networks of policy makers, experts and organizations on AMR and HCAI working in different European and International initiatives and projects relevant for policy decision; Promoting the One Health approach through a closer collaboration, understanding and trust between the animal health and human health sector, accounting for environmental issues, and the “One Health in all policies” concept (health policies should have an intersectorial dimension) in addition to the “Health in all policies” concept (all policies should have a health dimension). The aims are to join forces to... [\[keep reading\]](#)
