

Controlling the dissemination of bacterial resistance: the battle of the Millennium?

Chairpersons: Sophia Boudjema, Marseille (France)
Silvio Brusaferro, Udine (Italy)

14h Introduction

14h15 Bruno Grandbastien, Lausanne (Switzerland)

14h15 How to contain the spread of MDRO? An

14h40 overview of international recommendations

Manon van Dijk, Rotterdam (Netherlands)

14h40 Is the “search and isolate CPE” the best strategy

15h05 to control their dissemination?

Céline Bouvier-Slekovec, Besançon (France)

15h05 What place for gloves' wearing in contact

15h30 precautions when caring for MDRO patients?

Rose Gallagher, London (United Kingdom)

15h30 Coffee break

16h

16h CPE dispersal from sinks is linked to drain position

16h25 and drainage rates in a laboratory model system

Paz Aranega-Bou, Salisbury (United Kingdom)

16h25 Man-made microbial resistances in the built

16h50 environments

Alexander Mahnert, Graz (Austria)

16h50 Global discussion

17h30
