The German Society for Hospital Hygiene (Deutsche Gesellschaft für Krankenhaushygiene – DGKH) is the professional society for hospital hygiene in

Germany, in which have joined forces to hospital hygiene interested in this area and processed in the founding year 1990.

Our concerns are the prevention and control of hospital-and practice-related diseases with a focus on infection prevention, health promotion and environmental protection

- with expertise and commitment,
- a dialogue with science, practice and industry,
- in perception of the ecological, economic and social responsibility,
- through evaluation of prevention and intervention strategies,
- with the highest possible quality standards.

We offer:

- Cooperation with all medical and engineering disciplines, economists, lawyers, human biologists and architects,
- development of clear evidence-based recommendations,
- statement on current topics,
- congresses, conferences and training
