The society was formed in 1973 and has currently some 380 members. This is approximately 95 % of the professional group. The main objectives of the Society are twofold: 1. Supporting our members in carrying out their task of infection prevention and control in hospital settings; 2. Disseminating information about the prevention and control of infections. From the beginning in 1973 of our Society, we worked with a lot of diverse commissions, commissions who are active in the Society: Accreditation, Policies / Quality, Conference, Cash Audit, Continuing Education, Public

Relations, Audit in 2011 we switch to three pillars P&P, K and K (see also main activities). Since 1998 we had our own system for quality register. From 2009 we opened this as a open public quality register where all accredited infection control professionals are listed.

During a period of more than 25 years we had our own scientific magazine THIP but that stopped in 2009 because a lack of scientific papers. In 2012 we started up again our magazine but now in digital form dTHIP. The members of our Society are nurses as well laboratory technicians (medical microbiology), both with a bachelor degree.
